Reading Comprehension

(20 marks)

I - Read the following passage and then answer the questions: (10 m)

The kind of food we eat depends on which part of the world we live in. For example, in the south of China, people eat rice, but in the north, they eat noodles. In Scandinavia- Sweden, Norway and Denmark- people eat a lot of herrings (kind of fish), and the Portuguese love sardines. However, in central Europe, away from the sea, people do not eat so much fish; they eat more meat and sausages. In Germany and Poland, there are hundreds of different kinds of sausages. In North America, Australia, and Europe there are two or more courses to every meal and people eat with knives and forks. In China there is only one course, all the food is together on the table, and they eat with chopsticks. In parts of India and the Middle East, people use their fingers with bread to pick up the food and eat. Food is a very big business. People in poor countries, however, are still hungry, while people in rich countries eat too much.
