

Lessons and Material Included in EoT1 Exams for Chemistry – Grade 10

LC/Topic		Title	Pages	Remarks
LC1	Projects	Mystery Material	-	Study projects from the reports (project sheets) and from the notes in the site .
		Mega Mining Mart	-	
	Lessons	(1-1) The Puzzle of Matter	14 → 15, 21 → 33	The presentations are found in the site .
		(1-2) Properties and changes of matter	34 → 44	
		(2-1) Atoms and their structures (p66-68)	66 → 68	
		(2-2) Electrons in atoms (p77-79)	77 → 79	
LC2	Lessons	(3-1) Development of the periodic table	86 → 94	The presentations are found in the site .
		(3-2) Using the periodic table	95 → 110, 113	
		(4-2) How elements form compounds	130 → 147	
Remarks:		- The site; sites.google.com/site/iatians contains the following important study guides: 1) Visit the page Presentations for presentations about the lessons in LC1 and LC2. 2) Visit the page Worksheets and Notes for worksheets with answers about the lessons and any notes available about LC1 and LC2. 3) Visit the page Answer Key for answers to the quizzes and text book questions in LC1 and LC2, use these to learn from your mistakes. - How to Study? Start with the text book and presentations → note book and the questions we answered → worksheets and notes → answer key. - If this is so much, then make sure you study the lessons and presentations with some worksheets first.		

Best of Luck!
