TAKING ACTION ON THE ENVIRONMENT

Many people feel overwhelmed by today's talk of global warming and all the environmental problems we face. What it really comes down to is the need for all of us to take action as individuals.

Talk to your parents and grandparents about how things used to be. There is often good reason for traditional practices and beliefs. People today are incredibly wasteful in ways our grandparents cannot really understand. Our grandparents would have

mended broken things and done without things they couldn't afford. Today, if something is broken, it is sometimes cheaper just to throw it out and buy a new one. We need to Reduce, Reuse and Recycle.

Before you buy something next time, think about what your grandparents might say and ask yourself: do I really need this?

- 19** According to this text, what should we do before buying things?
